

# MicronMaxx™

HIGH-CAPACITY OIL BYPASS MICRO FILTRATION SYSTEMS—ONLY AVAILABLE FROM ECOPRO

MicronMaxx™ is the latest in oil bypass micro filtration systems. With the ability to filter engine oil down to 2 micron absolute, it **extends the oils' useful life** and **increases component life** (translation: cha-ching!). This state-of-the-art manifold is **easy to install** and **requires only one line** in and one line out.

## MicronMaxx™ mm-30G

Product: Secondary Oil Filtration (mounted off-line)  
Purpose: Oil Bypass Micro Filtration System  
Industry: Industrial / Mining  
Dimensions: 15.5" H x 6.0" W x 12.0" L

CAPACITY  
Engine (LP):  
15-30 US Gallons  
Hydraulic (HP):  
300-600 US Gallons  
Micron Rating: 2μ  
Weight/Dry: 30 lbs.

## MicronMaxx™ mm-45G

Product: Secondary Oil Filtration (mounted off-line)  
Purpose: Oil Bypass Micro Filtration System  
Industry: Industrial / Mining  
Dimensions: 15.5" H x 6.0" W x 18.0" L

CAPACITY  
Engine (LP):  
30-45 US Gallons  
Hydraulic (HP):  
600-900 US Gallons  
Micron Rating: 2μ  
Weight/Dry: 50 lbs.

## MicronMaxx™ mm-60G

Product: Secondary Oil Filtration (mounted off-line)  
Purpose: Oil Bypass Micro Filtration System  
Industry: Industrial / Mining  
Dimensions: 15.5" H x 6.0" W x 24.0" L

CAPACITY  
Engine (LP):  
45-60 US Gallons  
Hydraulic (HP):  
900-1200 US Gallons  
Micron Rating: 2μ  
Weight/Dry: 70 lbs.
